Tell AccessMyHealth What You Think

AccessMyHealth.org is a partnership of patients, doctors, consumers and others exploring ways to improve patients' access to their personal health information. An online personal health record lets patients voluntarily gather and store their health information to share with their physicians, family members and others.

The AccessMyHealth.org partnership has been convened by the Washington State Health Care Authority (HCA). The WSMA is well represented on the HCA's Health Information Infrastructure Advisory Board (HIIAB) that is overseeing this project.

AccessMyHealth.org is requesting your input on its work via a brief online survey. This is your chance to weigh-in at the outset. Go to www.AccessMyHealth.org.
